22/91	CLAYPENNY ESTATE – TREES The meeting was opened to the public. 91.1 The Chairman welcomed the residents and said that the Easingwold Town Council (ETC) understood their concerns about the impact of the trees on the estate. He confirmed that ETC was committed to respond positively and be as helpful as possible but that any action taken and costs incurred had to be appropriate to the roles and responsibilities of ETC. He therefore explained that any issues with regard to damage to footpaths, street lighting and street cleaning/clearing were the responsibility of the Highways Authority and should therefore be reported to NYCC. Any issues with blocked/broken drains should be reported to Yorkshire Water (YW). However, he confirmed that if residents were having problems in dealing with NYCC/YW then the Clerk (on behalf of ETC) and/or County Councillor Nigel Knapton would help to raise their concerns with these bodies. It was RESOLVED unanimously to commission a further tree survey for the entire Claypenny estate, including the appropriate areas of Oulston Road to cover all trees that are the responsibility of ETC. This would be actioned as quickly as possible and be a follow-up to both the 2017 report that covered Lime Tree Ave and the 2020 report which covered the other areas of the estate. It was AGREED that the Clerk would ensure that the concerns of residents are included in the commissioning brief for the survey but that this would not include a root survey. It was AGREED that the Clerk would make available the 2020 tree report. It was AGREED that ETC would respond positively to individual concerns by commissioning a tree surgeon where appropriate. It was AGREED that a tree surgeon should be sent to 4 Tower Croft. It was AGREED that the Clerk should contact the tree surgeon undertaking the work at Copperclay Walk to review the work being carried out on October 6 th 2022. It was AGREED that ETC would review its tree policy and in particular the appropriate cycle for tree surveys etc. 91.2 An email was received from Property Risk Inspection and it was AGREED to delegate the management to the Clerk. It was RESOLVED that the Clerk should find out the specific details of the replanting and confirm it with the residents of 13 Limetree Avenue.
